REMS Cento 22 V – Mobile cutting and deburring up to Ø 115 mm. Universal for many pipe types.

REMS Cento 22V is a compact, mobile, cordless pipe cutting machine for fast, right-angled and chipless cutting of pipes, without outside burr. The machine can be used universally for cutting plastic, metal and composite tubes. The stable, torsion-free cast construction enables fast, right angled cutting. The REMS Li-lon 22V technology sets standards in terms of economy and user friendliness and enables the user to cut ultra fast, e.g. stainless steel pipes with Ø 54 mm in only 7 s. The battery technology and low weight including battery of just 17.6 kg enable easy, effortless working everywhere on site. For trade and industry. For the building site and the workshop.

1 Ideal for pressfitting systems

Right angled cutting, according to requirements

Chip-free, no chips in piping system No outer burr, no damage to 0-ring by outer burr

Dry, no damage to the 0-ring by coolants-lubricants.

Fast, prevents degradation of pipe material through overheating.

- Compact, mobile cordless pipe cutting machine for fast, right angled, cutting with no outer burr. Handy and light, drive unit with battery only 17.6 kg. Stable, distortion-free cast construction for right angled cutting.
- 3 Easy pipe-cutting through specially designed cutter wheel.
